

Triumph Quality Statement

At Triumph, we are unwavering in our dedication to delivering superior quality across our Electrical and Industrial Products Divisions. Our commitment is rooted in the principles of innovation, reliability, and customer-centric excellence, ensuring every product exceeds industry standards and anticipates the evolving needs of our customers.

Triumph Electrical Products: We supply hazardous location electrical equipment, lighting, wire and cable, conduit and fittings and motor control products critical to the energy sector—explosion-proof enclosures, industrial starters, VFDs, and control stations. Every product is manufactured to meet Canadian and global standards, delivering safe, efficient, and durable performance in oil & gas, petrochemical, and industrial environments.

Triumph Industrial Products: We supply hose and fittings for a range of critical service applications from low to extreme pressures, specializing in hydraulic, industrial, rotary, well control and other fluid handling functions. Backed by our full-service testing and recertification facility, all products meet the highest quality control standards, ensuring zero defects, sustainability, and operational reliability under extreme conditions.

Triumph means Quality Without Question for the energy industry. We invest in expertise, technology, and customer feedback to keep improving. Your trust powers us—our quality defines us.

Triumph's Commitment to Authorized Distribution Channels for New Products

At Triumph Electrical Products and Triumph Industrial Products, **every new product we introduce reaches you exclusively through authorized distribution channels**, a deliberate strategy that safeguards quality, authenticity, and your peace of mind from day one.

Why Authorized Channels Matter: We partner only with tier-one manufacturers who share our values. This ensures:

- **100% Genuine Products** – No counterfeits, no gray-market risks. Products are serialized, traceable, and backed by manufacturers full warranty.
- **Expert Technical Support** – Authorized partners receive direct technical support access, enabling precise application guidance and rapid issue resolution.
- **Seamless Integration** – New products launch with validated compatibility data, and installation protocols—available **only** through authorized channels.
- **Regulatory Compliance** – From UL, CSA, and ATEX certifications to RoHS and REACH documentation, all compliance files are available at request for all the products we distribute.
- **For Our Partners:** When you source new Triumph products through authorized channels, you're not just buying components, you're gaining a **strategic alliance**. Expect dedicated inventory holds, volume-based pricing tiers, and real-time stock availability.

*Quality begins with trust. By choosing authorized distribution, you ensure every innovation from Triumph Electrical and Industrial Products performs exactly as engineered—**flawlessly, reliably, and exclusively for you to rely on.***
